Bircan Unver, Executive Producer & Director
The Light Millennium TV-LMTV

Dear Ms. Unver,

On behalf of the CONCERNED PEOPLE TO SET THE RECORD STRAIGHT (CPTSTRS), I would like to thank you for having given us an opportunity to respond to the decades-long allegations of a so-called "Armenian Genocide." In harmony with one of the founding principles of the LIGHT MILLENNIUM (LM), namely "To provide a forum for the full and free discussion of all matters of public [human] interest....." I am delighted to have participated with our eminent researcher Sükriü S. Aya in a TV-LMTV discussion to refute the spurious propaganda material that has been hammered away relentlessly in the collective mind by Armenians for close to a century now. CPTSTRS is determined to expose the deceptive fabrications that the Diaspora Armenians have been using for their unfounded claims in the absence of "genocide." In the face of blatant lobbying by the Armenian lobby to even outlaw speech on this issue in some European countries under "holocaust-denial laws" and in the United States through the state educational mandates which effectively ban contra-genocide views to be taught in schools, we thank LM for serving the public good in giving us the opportunity to speak out to set the record straight.

Sevgin Oktay for CPTSTRS
